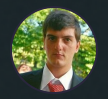
FEEDBACK

Users really want this



"I saw the website and immediately thought, '**I want that.**' It's like CLAUDE.md that actually works."

Nicolas Mesa, Cofounder & CTO, Veleiro AI

"I could do maybe **30–50%** more parallel threads... this is about freeing up cognitive resources."

Elvis Sikora, AI Engineer, CloudWalk

OUR STRATEGY

Do things that don't scale.

Luthien is building the same way.

Supabase **$5B** Oct 2023 Series E	Turned down million-dollar enterprise contracts to protect developer focus.	Self-serve Postgres-based backend with tiered pricing.
HashiCorp **$14B** Dec 2021 IPO	Hand-built Terraform configs for each early customer.	Terraform module registry and HashiCorp Cloud Platform.
Luthien **$2M** Pre-seed ask	Hand-built solutions for AI failures.	AI control layer as a service.

Luthien

Every org running AI agents will need a control layer.
We're building it.
